

SANASAR WEBB

(pronounced "sa-na-saar")

AUDIO PROFESSIONAL

SKILLS

With a background in media, I have experience writing, recording, editing, and producing music, sound effects, and voice-overs for multiple short films and my story-driven album: "Company Policy". It's here where my love for storytelling through sound comes to fruition, and my experience of the end-to-end production process of narrative media is exemplified.

I have previously applied my audio knowledge to education, taking my expertise into the classroom by holding music technology workshops for a variety of younger age groups.
